

PARENTS AND GUARDIANS:

We are always aware of the opportunity to promote a positive hygiene and cleanliness message to the students, while in the classroom and in the school building. Headphone use in the classroom and computer lab lends itself to sharing, therefore presenting the possibility of an unclean sharing situation. These circumstances of sharing can easily be avoided by students bringing their own headphones or earbuds to school, to bring, carry, and use whenever they use the computer, either in the classroom or at Computer Lab. There will be a small number of school headphones / earbuds available for loaner use in the Computer Lab, if you wish. We will be sure to add this item to the school year classroom supply list. Thank you for your understanding.
